

Ukraine Prayer Update – Monday, May 30, 2022 – Day 96

Praise Reports

Truth Revealed

- **Russian Default** – Russia attempted to avoid entering technical default by paying its May 27 debts early before the May 25 provisions expired, but the US said the funds didn't go through, so they'd need to be sent again, but of course now they wouldn't be accepted. Russia was due to pay interest payments worth \$71.25 million and 26.5 million euros (\$28 million) on two sovereign bonds on May 27, with more payments coming up in June. This means that a default will now occur on June 26.
- **Stolen Wheat** - Kirill Stremousov, deputy head of the military-civilian administration that has been imposed on occupied Kherson, has said that grain is being transported from there to Russia. Stolen commodities from occupied Ukraine: Astrakhan based CMC's Russia flag bulk carrier Matros Koshka transited Bosphorus towards Med en route from occupied Sevastopol allegedly to Beirut, but really to Syria (Tartus or Latakia), carrying 27200 tons stolen wheat.
- **Putin's Health** - "me thinks thou dost protest too much." There has been a clamoring of voices saying that Putin is not ill but many of them have said in the past that even he was it is bad politics to call it out in the press
- **Russian Plans** - "The liberation of the Donetsk and Luhansk regions, recognized by the Russian Federation as independent states, is an unconditional priority," Sergei Lavrov told French TV channel TF1 in an interview on Sunday.
- **Russian Officers** - Brigade and battalion commanders likely deploy forwards into harm's way because they are held to an uncompromising level of responsibility for their units' performance. Similarly, junior officers have had to lead the lowest level tactical actions, as the army lacks the cadre of highly trained and empowered non-commissioned officers (NCOs) who fulfil that role in Western forces. The loss of large proportion of the younger generation of professional officers will likely exacerbate its ongoing problems in modernizing its approach to command and control. More immediately, battalion tactical groups (BTGs) which are being reconstituted in Ukraine from survivors of multiple units are likely to be less effective due to a lack of junior leaders. With multiple credible reports of localized mutinies amongst Russia's forces in Ukraine, a lack of experienced and credible platoon and company commanders is likely to result to a further decrease in morale and continued poor discipline."
- **China** – the economy is bankrupt with trillions of dollars in default endangering the basic social compact that keeps the Communist party in power and the only solution is Western money and so they cannot risk supporting Russia.
- **Russian Military** - Right now, the Kremlin considers the capture of the entire territory of Donetsk and Luhansk regions by Russian troops as the "minimum program" for "declaring victory". In general, the Russians have come close to this result: now, about 5% of the territory of the Luhansk region and a little more than 40% of the Donetsk region remain under the control of Ukraine. The "Maximum Program" is still called the taking of Kyiv under control. At the same time, the offensive of Russian troops on the capital of Ukraine ended in failure back in March, Russia withdrew its troops from this direction (leaving behind evidence of numerous war crimes). Military experts pointed out from the very beginning of the invasion that the capture of Kiev was initially an illusory goal, since Russia had not concentrated enough forces for this. Nevertheless, according to Meduza's sources in the Kremlin, Russia's top leadership still hasn't given up on this goal. "We are going to kill them [Ukrainians] anyway. Most likely, by the autumn everything will be over," one of the sources believes.
- **The Lie of 2 Ukraines** - In the journal Chaos, Massimiliano Zanin and Johann Martínez, from Instituto de Física Interdisciplinar y Sistemas Complejos (Institute for Cross-Disciplinary Physics and Complex Systems), analyze a data set of violent events within Ukraine since January 2021 but prior to the invasion on February 24, 2022, by combining temporal and spatial correlations through entropy and complexity metrics with functional networks. The key finding of their work is the theory of two Ukraines doesn't hold up against the data. Conflicts do exist within Ukraine but aren't ideologically west versus east. The researchers found these conflicts tend to form a complex network of interactions with

no clear geographical boundaries. "Contrary to Russian discourse, we have not seen any indication of an eastern part of Ukraine being harassed by a western part," said Zanin. "This should be taken into account toward a possible resolution. The data suggest a solution involving splitting the country would be artificial and not guarantee long-term stability and peace." Sanctions - The evidence that sanctions are working, Putin has offered to release Ukrainian grain and the oligarchs have offered to make a massive contribution to Ukraine's rebuilding if certain sanctions are lifted!

- **Western Leaders Waffling** – EU has admitted that Hungary will not back a oil embargo so all they can hope for is a relatively meaningless embargo on ship-borne oil. Yesterday Netanyahu spoke with Putin. and in the past he has often acted as an emissary of Olaf Scholz and the evidence is that today Putin had a 3-way call with French President Macron & German Chancellor Scholz, the two most reluctant supporters of Ukraine, leading one to believe that they are looking for an out as Russia shows itself fundamentally unwilling to cease attacks on Ukraine.
- **Support** – So much of promised Western military support (beyond humanitarian aid and artillery shells), particularly heavy weapons has never made it Ukraine, let alone the front.

Pray Points - Latest

- **Severodonetsk** - Russian troops have entered the outskirts of the Ukrainian city of Sievierodonetsk. Regional governor Serhiy Gaidai has described the fighting as "very fierce" and "Unfortunately we have disappointing news, the enemy is moving into the city. Some 90% of buildings are damaged. More than two-thirds of the city's housing stock has been completely destroyed. There is no telecommunication."
- **Slavyansk** - the Russian troops are digging in to Lyman and preparing for an offensive toward Slavyansk
- **Odesa** - 2 missile strikes overnight at already damaged railway bridge in Zatoka, Odesa region
- **Sumy** - Russian army pushing more units to the border of Ukraine in Kursk region
- **Donbas** – approximately 10,000 Ukrainian troops are at at-risk of being encircled. And so much so that Ukrainian command is considering retreating from territory as perhaps the only way to protect those troops, but that would leave tens of thousands of

Ukrainians to the mercy of Russian occupation or abuse & atrocities.

- **People of the West** – pray that they rise up against their governments and demand they back Ukraine with more than words and do NOT negotiate with Russia, giving Putin land for grain or a ceasefire, rather than a military tribunal for him and the other war criminals.
- **Belarus** - Lukashenka said on Thursday that the Belarusian armed forces plan to immediately create a southern operational command, on the border with Ukraine
- **Kherson** - There is a threat of flooding in Kherson and Kakhovka due to Russian army actions at Nova Kakhovka hydro power plant - General Staff of Armed Forces of Ukraine. At the same time half the population has fled. And the Russians are actually shelling occupied villages
- **Black Sea** - Threats of missile strikes, particularly from the sea, remain relevant. The deteriorating weather makes it impossible to land marines and increases the risk of landmines being dumped along the coast. As of 26 May, the enemy naval grouping in the Black Sea of 6 airborne corps and 2 missile ships does not come with any changes in strength or objectives.
- **Luhansk** - the occupiers do not have control of the Lysychansk-Bakhmut route, but they are shelling there, so Ukrainian defenders and volunteers are looking for other ways to deliver supplies to the Ukrainian-controlled territory of the Luhansk region.
- **EU Sanctions** - Ukrainian President Volodymyr Zelenskiy has complained about divisions inside the European Union over more sanctions against Russia and asked why some nations were being allowed to block the plan. The EU is discussing a sixth round of punitive measures, including an embargo on Russian oil imports. Such a move requires unanimity but Hungary opposes the idea for now on the grounds its economy would suffer too much. "How many more weeks will the European Union try to agree on a sixth package?" Zelenskiy asked in a late night address on Thursday, noting that Russia was receiving a billion euros a day from the 27-nation bloc for energy supplies.
- **Ukrainian Prisoners of War** - There are about 8,000 Ukrainian prisoners of war held in the Russian-backed self-proclaimed Luhansk and Donetsk People's Republics, the Luhansk official Rodion Miroshnik has said.

- **Lyman/Slovyansk** - Russia's separatist proxies in eastern Ukraine claimed full control of the important battlefield town of Lyman on Friday, and Ukraine conceded that Russia has control of most of it, as Moscow presses its biggest advance for weeks. Lyman, site of a key railway hub, has been a major front line as Russian forces press down from the north, one of three directions from which they have been attacking Ukraine's industrial Donbas region. The pro-Russian Donetsk People's Republic separatists said they were now in full control of it. Fighting now underway near Rayhorodok, between Lyman and Sloviansk according to police at Sloviansk northern checkpoint, forbidding onward travel north. Outgoing artillery audible all morning from Sloviansk.
- **Dnipro** - 10 killed, about 35 wounded as result of Russian missile strikes against National Guard base in Dnipro district. 3 missiles were launched from Rostov region of Russia - head of territorial defense of Dnipro city
- **Donbas** - Russian invaders are trying to advance along the entire line of defense in eastern Ukraine, with 20x the forces than the Ukrainians, shelling villages and launching missile and bomb strikes. The Joint Forces units continue to conduct a defense operation in their particular area of responsibility on the Donetsk and Luhansk fronts. "The enemy is using combat aircraft, multiple rocket launchers, large-caliber artillery, tanks and mortars of various systems along the entire line of defense. They are launching missile and bomb strikes on civilian infrastructure and peaceful residential areas. The aggressors attacked over 40 settlements in Donetsk and Luhansk oblasts, destroying and damaging 47 civilian structures, including 38 residential buildings, a school, a health camp, a recreation centre and a railway station. 5 civilians were killed and 12 others were injured as a result of these shellings.
- **Unity** - there are movements beginning with Ukraine to begin to blame various people and parties for Ukraine's situation, attempting to create division calling for various people to be charged with corruption, rather than waiting till after the war
- **Lughansk** – the highway to Bakhmut was seized briefly by Russia yesterday, but retaken. This is a key artery to providing humanitarian and military aid and for evacuation of refugees.
- **Zaporozhia** - Russian missiles are falling in Zaporozhia in what is most likely an attempt to intimidate civilian population ahead of their expected push toward the city. As Russian troops and military hardware continues to gather in preparation for a huge push toward Zaporozhia
- **Melitopol** – there is a huge partisan movement among the people in this region and they have taken out many railroad bridges and trains.
- **Mariupol** - Russia claims to have taken complete control of Azovstal and that anywhere from 2000 to 2400 Ukrainian soldiers have been taken to either prisons or hospitals. Although they have been documented as POW's five the Red Cross to be exchanged for Russian POWs, but Denis Pushilin, the head of the separatist Donetsk region, told Russian state media said they are to be put on trial, though for what charges is to be seen
- **Ruble** – the Russian currency is surging to 7-year highs, that although artificial indicate that funds are flowing into Russia rapidly (as Europe attempts to refill stockpiles and India and other companies take advantage of discounted oil) meaning that Russia is being kept afloat.
- **Italy & Germany** – have set up ruble accounts with the EU's blessing to circumvent sanctions and pay for Russian gas
- **Italy** – has been apparently talking with Russia and submitting their own peace plan
- **EU** - Hungary is holding up the oil embargo
- **IMF** - The head of the International Monetary Fund, Kristalina Georgieva, has said the war in Ukraine has darkened the outlook for the global economy and could result in recession for more vulnerable countries and predicted that 2022 would be a tough year and declined to rule out a global recession if conditions worsened markedly.
- **Zaporozhia/Kryvyi Rih/Kherson** – Shelling continues as the Russians attempt to move forward and Russia has blocked all exit from these regions as people line up at the borders
- **Kherson** - Russia is stopping humanitarian aid from reaching hundreds of thousands of people in the region of Kherson, Ukraine said. Doctors could run out of medicine for chronically ill patients in two weeks, a Ukrainian official said. As they implement a ruble zone here it only increases the lack as people do not have rubles to purchase the need supplies.
- **Kharkiv** - Fighting continues in the areas of Ternov and Borshchiv with heavy shelling with the Russians conducting enhanced aerial reconnaissance.
- **NATO** - Even as Finland and Sweden apply to join along, Turkey continues threatened to veto it

- **Snake Island** – Russia is spending a lot of resources to install anti-missile facilities and to protect paratroopers who are holding the island
- **Russian Navy** - Russian Navy - All operating submarines of the Russian Black Sea Fleet went to sea from Sevastopol as seen by the fact that they are targeting military installations in Lviv
- **Fuel** - Russia continues to strike fuel refineries and stores (including in Lviv yesterday) destroying its Ukrainian production capacity and fuel tanks, continuing to create dangerously low availability of fuel, meaning much of Ukraine's economy and food supply could be affected, but also the military and humanitarian aid distribution.
- **Food** - prices soar 60% as India, the world's second largest producer, blocks exports due to low harvest from heat wave. Pray for the world food supplies as Wheat make up 15% of all the worlds calories consumed. And much higher for impoverished countries. Ukraine produces 7% of the worlds wheat and Russia 11% meaning 3% of the entire food supply for the world is cut off, and again a much higher percentage for developing world. While corn makes up 19.5% of global calories and Ukraine produces 2.6% and Russia with 2.3% of world supplies, meaning a further decrease in 1% of the world calorie intake for a total between wheat and corn of 4%. A response to this is that "the Russian invasion is a large shock for agricultural commodity markets, but not historically large. Markets and trade patterns will adjust to absorb it. Farmers around the world will produce more and consumers will cut back or substitute. The transition may be difficult in some places, especially countries such as Egypt that typically rely on wheat from Russia and Ukraine who must be helped to find alternate suppliers. The UN secretary general, António Guterres, has warned of "a hurricane of hunger" if Ukrainian grain is not exported. The world's 41 least-developed nations import a third of their wheat from Ukraine and Russia. Soaring food prices have already driven inflation levels in Egypt to the highest level since mid-2019.
- **Russian Military** - trying to create panic among the Ukrainian civilian population and to disrupt the supply lines in the rear, but has minimum success on the battlefield.
- **Mines** - Almost half of the territory of Ukraine needs humanitarian demining - this is about 300,000 square kilometers, according to the State Emergency Service. Every day, an average of 2,000

to 6,000 explosive items are seized and rendered harmless in the country. One day of active hostilities is equal to 30 days of demining. For example, it will take about a year and a half to clear mines in the Kyiv region, where the fighting lasted a month. "Spring is coming, overgrown with grass, and in a week explosive devices cannot be installed visually, only devices. A few months later, due to rains, they sink underground to a depth of 3-5-7 centimeters, they are not visible at all, but they are still working," the minister said. (As a sign of what supernatural resolutions can be possible, but during the Vietnam War, the United States strategically placed mines in North Vietnamese waters area that were set to detonate when a ship was in close proximity. In August 1972, a large number of these magnetic mines simultaneously started exploding. Upon investigation, the US found out that the cause of these explosions, which were estimated to be as many as 4,000, were not enemy ships. As it turned out, the culprit was a powerful historical series of solar storms with an extreme solar flare, solar particle events, and geomagnetic storm components hit the Earth.)

- **Testing the West** - multiple alternative narratives are being focus-grouped by politicians - Like assuming Russia taking half of Ukraine is a done deal. Or turning Ukraine into Cyprus - divided state with Chinese soldiers occupying
- **Russia - Default** - The Russian finance ministry announced it paid nearly \$650 million it owed holders of two of its dollar bonds. Two creditors told Reuters they had not yet seen the money in their accounts, but a senior U.S. government official confirmed that the payments had been made and that the source appeared to be outside the limits of the current sanctions. The Credit Derivatives Determinations Committee, representing major global banks and asset managers, met on Friday and acknowledged the reports of Russia's payments, but nonetheless made plans for a credit default swap auction next week "solely in order to prepare for the possibility of a Failure to Pay Credit Event." If Friday's announced payments clear, attention will shift to two events at the end of May:
 - Transactions between U.S. persons and Russia's finance ministry, central bank or national wealth fund are only allowed under a temporary license issued by the U.S. Office of Foreign Assets Control (OFAC) that will expire on May 25. The U.S.

Treasury has not commented on whether that deadline will be extended.

- Russia faces coupon payments due on May 27 on a dollar bond issued in 2016 and an euro bond issued in 2021. The payment on the euro bond could be done in ruble as a last resort, but the dollar bond does not have that provision.
- **Belarus** - starting emergency military exercises today, claims it does not pose a threat to its neighbors.
- **Narrative** – probing attacks from many directions in the media and with politicians continue as they attempt to discover a way to distract, divide or dissuade support for Ukraine and for Russia's total expulsion from Ukraine and for Russian government to be held accountable. Continue to pray for solidarity and truth and those in occupied territories who are suffering and/or have been deported will be heard and not forgotten or abandoned.
- **Putin** - Russian President Vladimir Putin is set to undergo cancer surgery and temporarily hand over power to a hardline former federal police chief, according to a new report. Putin will transfer control of Russia's government to Nikolai Patrushev, head of the Russian federal police's Security Council, while he is incapacitated during and after the procedure, according to a video from the mysterious Telegram channel "General SVR" on Saturday. Putin will transfer control of Russia's government to Nikolai Patrushev, head of the Russian federal police's Security Council, while he is incapacitated during and after the procedure, according to a video from the mysterious Telegram channel "General SVR" on Saturday. The channel — which is purportedly run by a former Russian Foreign Intelligence Service lieutenant general known by the pseudonym "Viktor Mikhailovich" — reported that Putin has been told by doctors that he must undergo an operation. The anticipated surgery and recovery are expected to incapacitate Putin for "a short time," according to the unconfirmed report. "Putin is unlikely to agree to hand over power for a longer period of time," the narrator of the video states, adding that the control of the country will likely be in Patrushev's hands for no more than two to three days. "I will say that this is the worst option," the narrator adds. "Patrushev is an outright villain. He is no better than Vladimir Putin. Moreover, he is a more cunning, and I would say, more insidious person than Vladimir Putin. If he comes to power, Russians' problems will only multiply." "Viktor Mikhailovich" ominously hinted

that he and his allies "will make certain efforts so this does not happen, and I hope we will succeed."

- **Social Media** - Russia's online trolling operation is becoming increasingly decentralized and is gaining "incredible traction" on TikTok with misinformation aimed at sowing doubt over events in Ukraine, a US social media researcher has warned.
- **PTSD** – they are seeing that those fleeing the Russians are holding on for about 10 days and then face complete mental breakdown.
- **6 Russian Key Objectives to Pray Against**
 - Kharkiv - Destroy, Encircle, Capture
 - Izium – push south to encircle Donbas
 - Slavyonsk and Kramatorsk – in the east to complete a smaller encirclement of the cities
 - Mariupol – completely destroy all opposition and export the populations
 - Zaporozhye - Russian troops are building up forces and building logistics a massive concerted attack
 - Kherson – Russia is facing sabotage from the people but is still attempting to push north toward Kryvyi Rih and west toward Mykolaiv, then to Odessa and to Transnistria and eventually to Moldova.
- **Izium/Kherson/Zaporozhye** – there is much evidence that Russia is desperately attempting to catch and conscript any and all able men in the occupied regions and force them to fight for them.
- **Ukrainian Artillery** – all of the defensive positions are using Soviet Era 152mm ammunition and NATO has been scrambling to provide Ukraine with all that it needs but they are running out. As the US is finally willing to send artillery (theirs is 155mm) it will still be months until it can reach the front lines and be used effectively.
- **Deportations** – Russia has deported over 500,000 people from Ukraine to Russia. 134,000 of those from Mariupol alone.
- **Mercenaries** – Continue to pray for all mercenaries to be neutralized in any way!
- **Logistics** - Russia logistical challenges are still problematic even though the supply lines to the Donbas are shorter, and much will depend on the condition of the roads and railways.
- **Refugees** – now 6.5 million have fled Ukraine. Pray for their safety, provision and care.
- **West** – pray that the pressure would continue to mount on western leaders to ban oil and gas

imports and to continue to increase meaningful heavy arms donations.

- **Russia** – pray that the emotional need to make a huge statement and reaction to the sinking of Moskva will lead to Russia moving prematurely and without adequate preparation and coordination and thereby dooming their own assault. Or to make a move that so steels international resolve that it makes supporting Russia impossible even for China and India.
- **Russian People** – pray they understand the Truth and reject the lies they've been told and rise up
- **US** – pray that Lend/Lease gets fast-tracked and raise on the House floor and approved **today**
- **China** – has doubled down and the Russian propaganda and refused to admit the atrocities were committed by Russia or any other point

Pray Points - Continued

- **Ukraine** - Almost two-thirds of Ukrainian children have fled their homes, the UN says. About 4.8 million out of 7.5 million children had to leave their homes, said Manuel Fontaine from UNICEF. He confirmed the deaths of 142 children, but added that the number is "almost certainly higher"
- **Economy** - Ukraine economy to contract 45.1% this year, Russia 11.2%: World Bank
- **Rage** - Pray against rage as videos have come to the four about Ukrainian soldiers summarily executing Russian soldiers. Although they can obviously feel incredibly justified, this is destructive to them and provides ammunition to Russia their attempt to create an alternative narrative in Ukraine.
- **Russian Military** - Russia is sending an 8-mi long convoy of 100s of vehicles, including armored vehicles and artillery southbound through the Ukrainian town of Velykyi Burluk. The convoy is moving about 60 mi east of Ukraine's 2nd-largest city of Kharkiv, as Russian focuses on Donbas. Russian Ministry of Defense claims destruction S-300 SAM at Chuhuiv airbase and Starobohdanovka in Mykolaiv region. Also claimed destruction of National Guard base in Zvonetske of Dnipropetrovsk region
- **TRUTH** – pray that an ever-increasing steady stream of the atrocities committed by the Russians will be revealed and documented to

maintain the ever-increasing pressure on political leaders and parties to act with speed, vigor and determination.

- **Russian Lies** – pray that all their various alternative narratives would be revealed as rags and shadows for all to see.
- **Evacuation & Panic** - Ukraine has urged civilians to leave the east of the country “while the opportunity still exists” before a massive Russian military assault that it expects in the coming days. The governors of the Kharkiv, Luhansk and Donetsk regions were calling on people to move immediately to safer areas. “It has to be done now, because later people will be under fire and face the threat of death. There is nothing they will be able to do about it.
- **May 9** - Reports are that Putin needs the invasion successful in time for the Victory Day parades, thereby threatening great attacks over the coming month. Putin would want to have an “announceable success” by then, which could create “some tension” with Russian commanders as exhausted forces were likely to be thrown into battle fairly soon in an attempt to gain ground in Donetsk, Luhansk and Kharkiv. This also is at the end of the 30-day default negotiation period (ending on May 5) meaning incredible pressure is on Russia to achieve victory by then.
- **Europe/US** – pray they will block all gas imports and provide truly meaningful military support.
- **Oil** – Pray that Europe would have the political will to do a complete embargo of Russian fossil fuels (oil, gas, coal, etc.)
- **Occupied** - Many villages completely cut off from all supplies and food and water!
- **Global Food** - there could be a global food crisis as Ukrainian farmers are being forced to limit what they plant due to the war. And also due to the fact that the main ways that they have a reaching global markets through the Black Sea is now blocked by Russia. Russia and Ukraine together produce 25% of all green in the world!
- **Refugees** - According to Polish border guards, more than 2.4 million people have fled Ukraine to Poland . However, supplies have dropped off and now the whole regions are struggling.
- **For the Weak** - Russia has flown more than 300 air sorties over Ukraine in the past 24 hours: senior U.S. defense official

- **Russian Elites** – to turn on one another and on Putin
- **Russian Military** – continuing to press in the north, but the real danger is that Russia seems to be preparing for an all-out push in Donbas to encircle the Ukrainian army and to take the entire region and to create a united front against Ukraine.
- **Russian Soldiers** – pray for their physical, emotional and spiritual well-being and for them to have the courage to face the Truth and the opportunity to receive the Gospel which is the ONLY answer to the atrocities they've already committed.
- **Russian Opposition** – that those in the inner circle will see a way out and that Russian Opposition would be able to gather together in a meaningful way
- **The Truth** – In all things that the Truth would be painfully evident and unavoidable in all public discussion
- **Ukrainian Army** - Russia is attempting to encircle the Ukrainian Army in Donbas
- **Russia** – for the people to wake up to the Truth and rise up
- **Putin's Inner Circle** – to fragment and turn on one another
- **Protection of the Weak**
- **The West** – to not grow numb to atrocities, but be compelled to action
 - **Sanctions** – Loopholes would be closed and sanctions rendered effective
 - **Oil Embargo** – That Europe would make the choice to stop immediately at the very least paying for gas & oil
 - **Heavy Weapons** – provide planes, tanks, heavy artillery and high-altitude weapons

"Each time, before you intercede, be quiet first, and worship God in His glory. Think of what He can do, and how He delights to hear the prayers of His redeemed people. Think of your place and privilege in Christ, and expect great things!" — Andrew Murray
